By Gretchen Edelbrock, Products Editor

The system also features the patented Sure-Load Carton Closing System. This system ensures product counts remain in the carton during machinery indexing. It features a small footprint and Allen Bradley control system. the MK-STK can ensure high packaging efficiency with your stick pack applications.

The MK-STK utilizes a Nordson ProBlue Glue system to ensure accurate glue application on flaps. In addition, the MK-STK can easily integrate with existing or new end user Stick Pack machines.

Numerous options are available including: all Servo Changeover capability, which can achieve three dimensional changeovers in under five minutes; remote diagnostic capabilities for troubleshooting; Nordson FulFill Adhesive System which ensures long, uninterrupted operation; and Prebreak Rotary Feeder to handle square cartons.
